Situated 10 miles north of Lincoln, this 21st century garden will interest every visitor within its 8 acres.

The yew hedging and walls near the house enclose magical garden rooms full of roses and herbaceous plants. A long terrace, Dutch, pergola and obelisk gardens link to a lavender walk, damp and dry garden leading onto a hillside planted with rarer trees, overlooking a large reflective pond.

Paths lead through a native woodland, prairie and wildflower meadow planted with naturalising bulbs.
